

INSIGHT TRAINING COURSE DESCRIPTIONS

inSight training courses take place at the 20-20 Technologies Manufacturing Solutions office located in Cary, North Carolina. inSight training courses are hands-on, using 20-20 Technologies computer equipment that is fully loaded with the necessary course software.

CFG 100 - INTRODUCTION TO PRODUCT CONFIGURATION	1.5 days
Designed to give an overview of order management, order entry, product configuration, engineering integration, and basic pricing.	Who should attend? Project Managers, Sales Managers, Customer Service Managers, Software Implementation Team (SIT) Members
CFG 200 - PRICING, DISCOUNTS, AND TAXES	2 days
Focuses on setup of rules and calculations used in determining pricing, discounts, and taxes based on industry specific examples.	Who should attend? Project Managers, Sales Managers, Customer Service Managers, Software Implementation Team (SIT) Members
CFG 300 - BILLS OF MATERIALS: CONFIGURATION AND MAINTENANCE	3 days
Designed to illustrate bill of materials (BOM) creation and maintenance for various types of items.	Who should attend? Project Managers, Engineering Managers, Software Implementation Team (SIT) Members
ENG 100 - INTRODUCTION TO ENGINEERING CONFIGURATION	3.5 days
Focuses on setup of flexible IMOS engineering models used to generate dynamic bills of materials on the fly.	Who should attend? Project Managers, Engineering Managers, Software Implementation Team (SIT) Members
ENG 200 - ADVANCED ENGINEERING CONFIGURATION*	3 days
Provides in-depth knowledge of complex, yet flexible IMOS engineering models, hardware connections, and engineering for "specials". * Pre-requisites include CFG100 and ENG100.	Who should attend? Engineering Managers, Software Implementation Team (SIT) Members
PRO 100 - INTRODUCTION TO PRODUCTION SCHEDULING AND EXECUTION	2 days
Focuses on production planning and scheduling tools and setup, maintenance, and configuration of Shop Floor Assistant.	Who should attend? Project Managers, Plant/Production Managers, Process Engineers, Shop Floor Supervisors, Production Schedulers, SIT Members
PUR 100 - INTRODUCTION TO PURCHASING AND INVENTORY	2 days
Designed to assist attendees in understanding overall functionality and data setup requirements for the Purchasing and Inventory modules.	Who should attend? Purchasing Agents, Inventory & Materials Managers, Software Implementation Team (SIT) Members
REP 100 - INTRODUCTION TO REPORTING & CHARTING	2 days
Designed to provide an overview of the inSight database and how to develop reports and charts using industry specific examples. For SQL/Crystal Reports savvy programmers.	Who should attend? Database Administrators, Reporting Specialists
SYS 100 - INSIGHT SYSTEMS ADMINISTRATION	2 days
Designed to assist attendees in understanding overall functionality, system setup and control as well as data testing methods.	Who should attend? Project Managers, Network/Systems Administrators, IT Specialists, Software Implementation Team (SIT) Members
