

20-20 SURFACES

Web-based software solutions for the fabrication industry

20-20 Surfaces is a business management solution designed specifically for countertop fabricators and retailers. It is a project management system that allows the client to track a job from initial customer contact, throughout the fabrication process, through to final billing and invoicing. 20-20 Surfaces includes functionality for Lead Management, Project Management, Quoting & Proposal Creation, Scheduling, Inventory Control, Purchase Order Management and more. 20-20 Surfaces allows an associate to proceed through the fabrication process in a linear, step-by-step process while also allowing easy access to any project information in real-time. 20-20 Surfaces is also flexible in how the customer can set up the system with regards to pricing structures, product and material structures, system defaults and settings, user permissions and roles and administrative settings.

END-TO-END SOLUTION

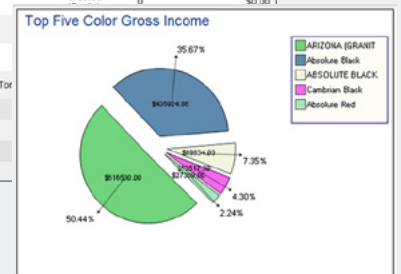

20-20's strategy allows a user to follow the fabrication process from quote-to-fabrication-to installation all in one system. Information for jobs, scheduling, sales leads, and inventory are available on-demand and in real time. This can dramatically reduce the resources required to maintain your data and also eliminates operational errors from manual data entry by allowing everyone to operate using a single hub with all relevant information.

BUSINESS INTELLIGENCE

20-20 Surfaces is a database filled with facts about your business. Our reporting tools allow you to extract those facts, analyze them quickly, and use them to make more informed decisions about your business. Knowledge of the facts means better decision-making. It gives you the ability to understand historical trends unique to your business: what products are selling for what profit, which sales people are performing, where the biggest quality problems are and much more.

CREATE CUSTOMIZED QUOTES AND ORDERS

20-20 Surfaces provides you with a tool for your sales force as well as for your retailers and dealers to accurately quote orders. Prepare quotes, sales confirmations and invoices from home, in the field, or at the shop. 20-20 Surfaces also allows you to build quotes based on multiple color selections and price lists. You can also record each customer interaction within the user/date/time stamped "notes" section of the job folder.

INTEGRATION SERVICES

20-20 Surfaces eliminates the chaos of disconnected systems by centralizing product data that integrates easily with other systems. Advanced product models contain all of the data that your manufacturing operations require allowing you to configure products to order. Add-on modules can also be purchased to improve customer communication, create purchase orders, CNC machine integration and slab calculation.

MODULAR APPLICATION

We understand that businesses all follow different processes and have different needs. 20-20 Surfaces allows you to choose only the modules you want without committing to areas of the program you may not use. With subscription services starting at as little as \$149 a month, 20-20 Surfaces offers packages for any budget.
